Vast Trade Investment, a leading FinTech corporation serving millions of people across the world was founded in 2000 with the mission to harness technology to provide unprecedented financial freedom, economic opportunity, and income equality for the 99%. For too long, big banks and financial institutions have gotten away with greedy, unethical, and risky behavior. It's time to replace our current financial systems with a new model that only ever acts in the best interest of the community. Vast Trade Investment is the largest full-service blockchain technology company in the world. We develop and deliver cutting-edge software and hardware solutions necessary for businesses, governments, organizations and individuals to securely move assets across the blockchain.

Welcome To **Vasttrade-investments**

We are committed to building sustainable wealth for investors.

Our vasttrade-investments invest in Blockchain technology and early token sales. Our inclusive objective is to reinvent investment strategies for token sales. An investment with instagain.ltd means:

- Investors own the protocol
- Investors profit from token growth
- Investors earn from the Blockchain
- ROIs are backed by smart contract.

As a lifetime business partner, vasttrade-investments is committed in helping investors maximize profits by giving the upper-hand on increasing capital value with early detection of profitable trends.

WHY US

Why choose us

vasttrade-investments

Our funds are diversified to include protocols and blockchain companies.

Our funds focus on tokens that incentivizes the core actions of a protocol and/or excel in developing novel mechanisms for smart contracts. In addition, we invest in early token sales that interact with an actual business or product in the blockchain ecosystem.

CRYPTOASSETS

Investors are profiting from our growing variety of cryptoassets

Our cryptocurrencies asset class encompasses cryptoassets trading and HODLing, as well as protocols and smart contracts, that allow investors to benefit both from the increasing value of cryptoassets and the profits from successful trades.

More About Us

Our Insurance Services

Life Insurance:

Life insurance provides a death benefit to the beneficiaries of the insured person in the event of their death. It helps provide financial protection and support to the insured person's family or dependents

Health Insurance:

Health insurance covers medical expenses and provides financial protection in case of illness, injury, or medical emergencies. It can include coverage for hospitalization, doctor visits, prescription medications, and other medical services.

Homeowners/Renters Insurance:

Homeowners insurance protects homeowners against damage or loss to their property and belongings due to perils like fire, theft, or natural disasters. Renters insurance offers similar coverage for tenants' personal belongings and liability.

Property Insurance:

Property insurance covers commercial properties, buildings, and their contents against damage or loss caused by perils such as fire, vandalism, or natural disasters. It may also include coverage for business interruption or liability.

MINING

WHAT'S THE INCENTIVE FOR MINERS?

It all comes down to trust: Miners keep the blockchains trustworthy and are rewarded for their efforts.

As miners, we are processing and verifying the transactions of the cryptocurrency ecosystems and keeping their public transaction history (Blockchains) maintained and secure. For this, the mining community is rewarded with the networks' transaction fees and newly created coins. It's a win-win situation! When you start mining with us, you are getting your share of this reward.

HOW IS BITCOIN KEPT SECURE?

The only way to not create money out of thin air or corrupt it, is to burn real energy. This is called Proof-Of-Work.

Today, bitcoin is the most secure computer network on the planet and it's practically impossible to break it! The reason for that is hash power, the umbrella term used for the computing power that miners provide to the bitcoin network and similar cryptocurrency networks. Due to the rapid growth of the ecosystem, mining operations today are mostly running with specialized high-performance computers that function most efficiently set up in large data centers.
